

CASE STUDY: The History of Water Supply on the Central Coast

APPENDIX 11:

Table 9: Predicted growth in population and water demand according to Gosford and Wyong Council estimations made in 2007 (see page 20).

Year	Serviced population	Without water-saving measures		With water-saving measures	
		Annual water demand (ML/a)	Peak daily demand (ML/d)	Annual water demand (ML/a)	Peak Daily Demand (ML/d)
2001	285,200	34,280	254	34,280	216
2011	318,960	38,340	284	36,150	228
2021	355,120	42,680	316	38,360	242
2031	391,340	47,040	348	41,080	259
2041	427,570	51,440	381	44,510	280
2051	463,800	55,220	409	47,630	300
